EXPERIENCE

Redko

UI/UX Design Intern

Dec 2020 to Present

Designed high-fidelity mockups and improved overall user experience for Lunarix. A manifestation and meditation app that helps to relieve stress, and improve manifesting practices with the principles of the law of attraction. Worked on an AI chatbot using Dialogflow and projects for different clients. Followed the lean startup approach: MVP and rapid iterations.

Amazon

UX Design Intern

Jun 2020 to Sep 2020

Worked with the Fire Tablet Team to create a feature on the tablet to increase customer engagement and monthly active users. Designed and prototyped interfaces, AR user experience for the new feature integration and conducted user studies.

Heali

UI/UX Design Intern

Feb 2020 to Apr 2020

Designed interfaces for the beta Heali AI app that assist users to achieve a healthier lifestyle with a simple personalized dieting. Followed lean startup method - Rapid iterations and MVP.

Freelance

Graphic Designer & Visual Designer

Jan 2019 to Present

Worked on web design, logo design and illustration. Effectively communicate design specifications to clients and developers.

EDUCATION

University of Washington

BA, Interactive Media Design

Sep 2018 to Jun 2020

Dean's List
